<TEXT>I do not want to pay more for my telephone service! I urge  
you to reject a flat fee proposal that would change how  
contributions are made to the Universal Service Fund. I am  
concerned that this proposal could make my current service  
unaffordable.

Under the flat fee proposal you are considering, people who make  
few long distance calls would pay the same as people or  
businesses that make many calls. In other words, low-volume and  
primarily residential customers would bear the same universal  
service fund burden as a high-volume residential or business  
customers. This is unfair!

I use my wireless phone for safety, security and convenience. I  
don't want to lose these benefits so that big businesses can pay  
less than their fair share. I urge you to reject the proposal to  
move the USF collection system to a flat-fee.

Keep the USF Fair!

I am a senior citizen, and use my cellphone for safety, and my  
husband is a heart patient who uses his when he needs to contact  
me while I am away from the house. We are not wealthy, and can  
ill afford any more expense from any source. PLEASE do not place  
an added burden on us and others in like circumstances.

Sincerely,

Carrol Greenwood PO Box 56 Hinkley, CA. 92347-0056

Sincerely,

Carrol Greenwood
